

# Product Data Sheet

## Pipe Boot

Available in Black or White and pipe sizes ranging from 1-3" or 1-6"

## Product Information

Seal Trust™ Pipe Boots are pre-molded EPDM accessory for flashing pipes or stacks protruding from the roof on single ply membrane installations such as EPDM and TPO. Pipe Boots are installed over vent stacks and pipes usually on flat roof surfaces. The boots all come pre-taped for easy installation with a flange that installs to the membrane in a peel and stick application. The boots come with two piece release paper for easy use.

### Application Instructions:

Always clean and prime membrane using roofing industry standard products for tape applications such as Seal Trust™ F-Primer or Low VOC Tape Primer. Usual installation requires primer installed on or about 4-5 inches away from each pipe. Then measure the diameter of the pipe and cut the boot at one size smaller than the pipe (i.e. 4" stack cut at 3" level) and stretching over the pipe. Before pipe boot installation Water Cut Off Caulk should be installed on the pipe for maximum protection. Pipe clamp is provided and required for final step.

**Resistant to:** Weather, water & water vapor, (5%) acidic or basic solutions

**Effected by:** Petroleum, grease, oil, solvents, vegetable oils, and animal fats

**Product Storage:** Store in warehouse without excessive heat. Do NOT store long term on roof.

**Shelf Life:** 1 year if stored between 60° and 80° F.

### Physical Properties:

**Color:** Black

**Odor:** Slight Hydrocarbon

**Volatile:** % by Volume: None

**Solids:** 100%

**Penetration:** (ASTM D 217) : 100/130 mm

**Adhesion:** To most clean, dry substrates/surfaces

**NOTE: TECHNICAL INFORMATION AND DATA SHOULD BE CONSIDERED REPRESENTATIVE OR TYPICAL ONLY AND SHOULD NOT BE USED FOR SPECIFICATION PURPOSES.**

#### User's Responsibility

This Product Information cannot cover all possible situations, which the user may experience during processing. Each aspect of your operations should be examined to determine if, or where, additional precautions may be necessary. All health and safety information contained in this bulletin should be provided to your employees or customers. It is your responsibility to use this information to develop appropriate work practice guidelines and employee instructional programs for your operation
