

Product Data Sheet

Cover Tape

Available in black or white

Product Information

Seal Trust™ Cover Tapes are cured EPDM cover rubber with specially formulated butyl mastic extruded together for typical roofing applications such as cover for most metal terminations including gravel-stops and drip edge, and extensively used for horizontal patching, seam repairs and seam overlays. This peel and stick product has long term heat and chemical resistance and gives Seal Trust Cover Tape the ability to remain flexible in harsh conditions. Surpassing the industry standards for tack and shear strength our cover tape products provide superior holding power for long life and high durability. Industry standard roofing membrane cleaners and primers like our Seal Trust Seam Primer must be used to clean the membrane before application. Used with EPDM, TPO, and some PVC roofing membranes.

Resistant to: Weather, water & water vapor, (5%) acidic or basic solutions

Effected by: Petroleum, grease, oil, solvents, vegetable oils, and animal fats

Product Storage: Store in warehouse without excessive heat. Do NOT store long term on roof.

Shelf Life: 1 year if stored between 60° and 80° F.

Physical Properties:

Color: Black or White

Odor: Slight Hydrocarbon

Volatile: % by Volume: None

Solids: 100%

Penetration: (ASTM D 217) : 100/130 mm

Adhesion: To most clean, dry substrates/ surfaces
